

MADRAS FERTILIZERS LIMITED SEEKS PARTNERS FOR NEW DESALINATION PLANT PROJECT

Madras Fertilizers Limited (MFL), A Govt. of India – Public Sector Undertaking, under the administrative control of Department of Fertilizers, Ministry of Chemicals and Fertilizers, Government of India, located in Manali, Chennai – 600 068, is inviting Expressions of Interest (EOI) from reputable parties for the establishment of a desalination plant, supplying treated Reverse Osmosis (RO) water under a long-term Build, Own & Operate (BOO) agreement.

Currently, MFL requires a reliable supply of 14 Million Litres per Day (MLD) of treated RO water. However, with plans underway to establish a new fertilizer manufacturing unit, currently under pre-feasibility study, MFL anticipates a significant increase in water demand. The projected consumption is expected to rise to between 40 and 50 MLD in the future.

For further details and information on submitting their Expression of Interest, interested parties are requested to contact as per below details.
